# G'OBST

with **LiquidControl** technology

THE VEGAN  
AND VEGETARIAN  
BASIS FOR YOUR  
TREND PRODUCTS

FULL OF

Savoury, reduced-germ preparations with lots of vegetables and fruits – the new **G'OBST** products by Fuchs. All vegetarian, and ideal for dips and pasta, as a spread or filling and much more, they are popular wherever fruits and vegetables are promoted as healthy ingredients. We will be pleased to develop a customised recipe for your product. In addition to our LiquidControl technology for germ reduction, all **G'OBST** products can also be combined with other Fuchs technologies, which means they can be adapted precisely to your requirements. We would be happy to personally inform you about the advantages of our new product range.

# FANCY HEALTHY?

VEGETABLE – FULL OF FRUIT – FULL OF FLAVOUR

## G'OBST – today's trend

The modern consumer enjoys trying unusual flavours. One major trend\* is the blending, mixing and crossing of foods („**Hybrid Foods**“). And anything goes: in addition to the combination of sweet and salty, fish and meat, the interplay between vegetables and fruits is also an exciting taste experience. At the same time, G'OBST takes up the topic of „**Food Pairing**“ and another major trend, „**Soft Health**“. Healthy eating should no longer be a matter of what you can't have (e.g. cholesterol, saturated fatty acids), but it should be delicious. Look forward to a refreshing new interpretation of various classics with G'OBST.
